## Organic Mattresses

Organic Mattresses, Inc. (OMI) mattresses and bedding are produced in the nation's only large-scale 100% organic factory. Their commitment to maintaining a smoke-free, fragrance-free, and cruelty-free environment runs so deep that our employees don't smoke, wear fragrances, or use fabric softeners on their clothing.

- Certified to the Global Organic Latex Standard
- Certified by Oeko-Tex to be Free of Harmful Substances
- American-Grown NOP-Certified Organic Cotton
- Made in the USA

## The Midori

The OrganicPedic® Midori is a contemporary, low-profile mattress. Measuring at 7" high, it is a two-sided, flat-surface mattress made from one-piece 6" core of medium-firm 100%-natural rubber latex, then covered with our signature OrganicPedic knit quilting. The Midori was designed in the style of a firm Japanese-style sleep system. It makes a great option for sleepers looking for firm support, as well as for children.

- GOLS-Certified Organic Natural Rubber Latex
- American-Grown NOP-Certified Organic Cotton
- GREENGUARD® Tested and Certified
- Natural Rubber Latex from Rubber Trees, Not Petroleum
- Made in the USA

## TEMPUR-Cloud® Prima

- Antimicrobial treatment - Hinders microorganisms
- including dust mites
- Premium Fabric Cover - High-loft super-stretch cover with grey upholstery sides

Expert Review by Ronnie Introducing the New TEMPUR-Cloud® Prima, this is the firmest mattress in the Cloud Collection. So I would consider this mattress a Medium-Soft feel, this sleeper has a softer initial feel and firm supportive base. The new EasyRefresh™ Top Cover is easily removable and keep hygienically fresh. The New Performance top cover that is cool to the touch and will keep you cool and dry throughout the night. The Cloud® Prima, contains the Soft 4 lb. TEMPUR ES memory foam for the top layer and also has the 5.3 lb. TEMPUR material to distribute body weight evenly across the mattress.

## Nature Latex Mattress

- No need to flip or turn
- Zip off Removable and washable mattress cover
- No quilt
- No fiber and no foam in the comfort layers to enhance durability

Expert Review by Ronnie The Pure Latex Bliss Nature has an amazing Medium Firm Feel. Most of the customers who have purchased this mattress have mostly been back and stomach sleepers, but also sometimes sleep on their sides. The nice thing about all the Pure Latex Bliss Mattresses is if the mattress is too firm you can add a two or three inch custom fit topper adding more pressure relief to your bed. This Mattress is made of two inches of Medium-Soft Latex (21 ILD) for the top layer, two inches Pressure Relieving Talalay Latex (28 ILD) and the base layer is six inches Talalay Latex Support Core (40 ILD).

## High Profile Latex Down Pillow

- LatexDown™: these scrunchable puffs are a cool and comfy alternative to the decadence of down.
- Healthy by Design: Natural anti-microbial and dust mite resistant qualities keep allergens at bay to reduce sneezing and wheezing.
- Earth Friendly: Made in USA
- latex does not emit harmful offgasses and is biodegradable.

Enjoy a decadent down-like feel that's free of allergens. The latex material has an open cell structure that allows the pillow to conform to the shape of your head, resulting in a deeper and healthier sleep.
